

COOL COUNTER – RUN CHASE

CHANCE TO SHINE
Spreading the power of cricket

LEARNING OUTCOME

Children love to move, so let's learn with this cricket themed activity that supports numeracy. This session focuses on active maths skills with a cricket theme.

STARTER ACTIVITY

With a partner, write the numbers 1-20 on separate pieces of paper. One of you hides them round the house and/or garden.

MAIN ACTIVITY

One of you has 5 minutes to run around and find as many number cards as possible. Every number you find, you must return it to the starting point. Your partner can then place the numbers in pairs or threes. Can you add some of the numbers together? Subtract some of the number groups? For every card you find you score 1 point, for every answer you get right you score a 6! Get a grown up to keep count of your totals and see if you can beat your score next time.

TOP TIPS

Try your best, some of the numbers may be a bit tricky so don't be afraid to ask a grownup to help.

EXTENSION ACTIVITY

Apply some cricket themed questions to the activity e.g. one batter scores 5 runs and their partner scores 10, how many runs does the team have? There are 6 balls bowled in an 'Over' Sarah has bowled 2, how many more times can she bowl?

NOTE: how is this activity supporting your child's learning?
