Change of title from Welfare Officer to Safeguarding Officer (County/Club/League)

To provide consistency across the network and to bring us in line with the terminology used in all areas of cricket, other sports and external agencies, we are recommending a change from Welfare Officer to Safeguarding Officer.

This change will provide consistency in all areas of cricket and will align with external practices. This title change will apply for County, League and Club Welfare Officers.

During this transitional phase amendments will be required to various policy and guidance documents and there will be a period where both terms welfare and safeguarding are in use.
